Action Plan

What I Want to Accomplish)

SPECIFIC ACTIVITY	MEASURABLE (HOW WILL I KNOW I HAVE ACHIEVED THIS)	ACHIEVABLE (WHAT OPPORTUNITIES DO I HAVE TO ACHIEVE THIS?)	RESOURCES I NEED	TIME SCALE
Fire Lighting	I will be able to light fires confidently, without apprehension.	I aim to apply my practical skills regularly to reach my objective. Since I am not working at a forest school, I have begun volunteering with Nacro Outdoor Learning, which organises various activity sessions for children in Wythenshawe. Apart from outdoor pursuits, I will be assisting the Bushcraft group and participating in camping expeditions with them.	The only resource that I need for this activity is time.	I have already started volunteering at Nacro and for continued professional development I aim to continue this on a long term basis.
Whittling	Ability to craft a range of objects from wood with a knife. Feel confident at doing this and my ability to teach the skill to others.	I will attend any sessions that the bushcraft group at Nacro are facilitating if they are teaching whittling. I will also look for CPD courses that I can attend. There are also YouTube videos that I can watch for detailed instruction.	I'm going to buy myself a knife for whittling and see if I can source Hazel locally.	Attend a course: Before January 2025 Volunteering with Nacro: Ongoing
Using a Bow Saw	Ability to cut various types of wood with ease.	Create a workspace at home and look for a CPD course. There are also YouTube videos that I can watch for detailed instruction.	Tools and equipment required Bow Saw Protective Glove Saw Horse Wood	Attend a course next year if I can find one. In October source the resources needed to begin.
Reading	When I have read the books and made important notes that will help to further my understanding and practice.	I have already purchased the books.	I will need to allocate time in my schedule to read on a regular basis.	Twelve months
